Additional Learning Needs

Rhosymedre Community Primary School is an exceptionally caring and nurturing inclusive community that ensures pupils feel safe, secure and happy. We foster positive relationships and high levels of trust and respect between our staff, learners and parents, guardians and carers. We have robust strategies in place for early identification of potential additional learning needs (ALN). We work closely with parents and carers to build strong relationships with external agencies and secure necessary support.

To best support every learner in our school, we adopt a graduated response that encompasses an array of strategies and interventions. Our graduated response part of a continuous and systematic cycle of planning, action and review within school to enable **all** pupils to learn and progress.

In the first instance, learners needs will be met through **quality-first teaching** within the classroom, where good quality teaching and differentiation means that every child is included. The needs of all pupils are considered, with high expectations for all to help pupils access independent learning.

Safeguarding

SAFEGUARDING/CHILD PROTECTION Here at Rhosymedre Community Primary School it has a statutory duty to safeguard and promote the welfare of all children. This responsibility necessitates child protection policy and procedures. In the event of serious concerns about a child's welfare, physical or emotional, it is the duty of the Headteacher as the school Safeguarding Officer, to make a referral to the appropriate partner

agencies in order to ensure the protection of the child. This school is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment.

Religious Education and Collective Worship throughout the school

The teaching of Religious Education encourages and develops an awareness of religious, spiritual and moral attitudes. As parents and carers you can help by encouraging your child to have a caring and respectful attitude towards others and to respect the environment. The daily act of Collective Worship is the unifying force of the school and encourages self-awareness and care and understanding of others and of the world in general.
